

# SolarEdge Domestic Content For Every Need

Whether you're using our domestically manufactured PV and storage solution or combining with a third-party domestic battery, SolarEdge delivers an optimized approach designed to meet your domestic content requirements with precision and flexibility.

## **Ideal:** SolarEdge Home Solution

- / Single-vendor solution
- / Eliminates redundant inverter
- / DC-Coupled for 10% more energy, avoiding main panel upgrades
- / Designed for high wattage panels, prevents micro-clipping
- / 200% oversizing for larger systems
- / 94.5% industry-leading roundtrip efficiency

## SolarEdge PV + AC-Coupled 3rd Party Battery

- / Industry-leading 99% inverter efficiency
- / Designed for high wattage panels, prevents micro-clipping
- / Higher oversizing capabilities
- / Low startup voltage – system activates earlier and stays on longer
